

According to Statistics, the current number of smartphone users in the world today is 3.5 billion, and this means 45.12% of the world's population owns a smartphone. This figure is up considerably from 2016 when there were only 2.5 billion users, 33.58% of that year's global population.

According to research from Rescue Time, one of several apps for iOS and Android created to monitor phone use, people generally spend an average of 3 hours and 15 minutes on their phones every day, with the top 20% of smartphone users spending upwards of four and a half hours.

With that said, the digital world is trending vigorously. You need to advertise and exposed your business in a platform where people have access to you 24 hours a day, 7 days a week, LOCALLY.
